^{1/} Statutes based on the NSSTA Models generally include a transition rule that specifies that the statute applies to transfers of structured settlement payment rights under transfer agreements (i.e., factoring agreements) entered into on or after a specified date, generally the same date on which the statute takes effect. For any statute that includes this transition rule, the effective date listed in this table is the date after which new transfer agreements will be subject to the statute. In other cases the effective date listed is the effective date of the statute itself.

^{2/} Idaho H.B. 237 enacted structured settlement protection provisions as an amendment to the scope section, § 9-109, of Revised Article 9 of the Idaho Uniform Commercial Code. This unusual placement makes it unclear how and when the structured settlement provisions will apply.
